About Vaioni

Since 2001 Vaioni have been delivering high performance, world class network broadband, telecoms and support services to 8000 users across the UK and Ireland. We have strategically designed and developed unique products and solutions to help businesses to success. Our portfolio of business services are delivered across our 3 datacentres, something which few competitors are able to provide at such a complex level.

Vaioni have also setup alliances with national Tier 1 carriers and peering arrangement with many ISP's. These alliances put Vaioni in a position that offers businesses, the latest technology, shortest route to the internet, lower costs and unsurpassed support on a national basis.

Vaioni bring a new generation of broadband services to businesses by combining all the UK's broadband based

services from BT, Easynet, Bulldog and Be into a single company. This allows Vaioni to offer a business the full flexibility of different broadband services under one company brand. This has distinct advantages to a business that is looking to establish a broadband service which meets its exact connectivity needs. It also helps avoid dealing with large suppliers who may not always respond to your demands in a timely fashion. Our service offering is exceptional, backed with true business technical support and responsive fix times. The Vaioni broadband service offers a solid and flexible offering for ADSL connectivity.

Vaioni are currently offering a FREE speed upgrade to 2mb on all new ADSL orders for 3 months!!! This is to give new customers the opportunity to experience a business quality broadband service.

Full support services are available

Vaioni also offer a supply of ADSL and SDSL routers and can also provide an installation service by our business support team.

Order online at <http://www.vaioni.com>

Unique option with ADSL bonding

Vaioni have been offering bonded ADSL through its Enterprise Connect solution for the past three years. Vaioni ADSL customers have the option to upgrade to our bonded ADSL platform to take advantage of much faster upload and download speeds. See <http://www.vaioni.com/bondedxdsl.html>
