### About Vaioni

Since 2001 Vaioni have been delivering high performance, world class network broadband, telecoms and support services to 8000 users across the UK and Ireland. We have strategically designed and developed unique products and solutions to help businesses to success. Our portfolio of business services are delivered across our 3 datacentres, something which few competitors are able to provide at such a complex level.

Vaioni have also setup alliances with national Tier 1 carriers and peering arrangement with many ISP's. These alliances put Vaioni in a position that offers businesses, the latest technology, shortest route to the internet, lower costs and unsurpassed support on a national basis.

As a connectivity specialist, dark fibre solutions fit perfectly within our business class and mission critical solutions portfolio. Vaioni have vast experience and expertise in delivering dark fibre solutions across the UK to deliver high speed data communications between offices, HQ's and campuses. We work closely with the top 3 dark fibre providers and top 5 Telco's to ensure you get the best solution possible and with our buying power, the best possible price too without the compromise of a quality and high SLA service. We can provide single to multi-pair fibre to single duct to fully diverse dark fibre solutions delivering extreme reliability, jitter free and low latency solutions.

Most dark fibre solutions are delivered unmanaged, however Vaioni have access to high-end fibre switches and networking equipment, so we could if required design implement and support a full dark fibre solution.
