

International Private Circuits

About Vaioni

Since 2001 Vaioni have been delivering high performance, world class network broadband, telecoms and support services to 8000 users across the UK and Ireland. We have strategically designed and developed unique products and solutions to help businesses to success. Our portfolio of business services are delivered across our 3 datacentres, something which few competitors are able to provide at such a complex level.

Vaioni have also setup alliances with national Tier 1 carriers and peering arrangement with many ISP's. These alliances put Vaioni in a position that offers businesses, the latest technology, shortest route to the internet, lower costs and unsurpassed support on a national basis.

Vaioni work very closely with its global Tier 1 Telco partners to deliver international private circuits between different country locations ranging from 2mb up to 10Gb+ circuits through an access of over 1000 PoPs across nearly every country. Our expertise with different technologies and geographical knowledge, we hand pick the best Telco in your regions to deliver the most cost effective and best performing service available. Our real value is in providing a complete and fully managed service, makes us the preferred supplier for many small and large bluechip businesses across the globe. We provide the circuit, the Cisco routers including installation and then provide the best available SLA on the equipment which consists of a 2hr response and 2hr guaranteed fix.
