

Company Profile

With the largest UK Aggregated Ethernet Fabric and a vast Next Generation Global Aggregated Ethernet Fabric, Vaioni is an independent and leading UK and Global Provider of Next Generation Ethernet Services, VPLS and PWAN solutions, encompassing world class, virtualised UTM security services, voice and IP cloud services. We work within Carrier Wholesale, The Channel and Corporate Enterprise.

We work within Carrier Wholesale, The Channel and Corporate Enterprise.

We deliver bespoke, complex, innovative and the most extraordinary and compelling Layer2 and Layer3 IP services and solutions to a range of partners and Corporate end users all over the UK, rest of Europe, The Americas, Africa, Middle East and Asia.

We interconnect and network with 100's of global Telco carriers delivering bleeding edge, high performance, Ethernet services, IPVPN, MPLS, PWAN and VPLS solutions.

We deliver our services and solutions through [The One Platform](#) (TOP), which is a uniquely designed cloud platform. The One Platform is a unique and simply extraordinary cloud platform enabling businesses and cloud service providers to create a Next Generation Network for their own bespoke business use, incorporating UK and Global Layer2 and Layer 3 Ethernet services, virtualised UTM security policies, voice and a host of ideal cloud based IP services.

We manage hundreds of Ethernet services and solutions for some of the largest corporate and household named businesses such as, BBC, NHS, Virgin Racing, ESPA, Western Union, MTI Technology, TakeTwo International, Russell Hobbs, Post Office and Medina Dairies. We work across all vertical markets including the Finance Sector, Manufacturing, Media, Accountancy, Law and Technology.

Our resource pool of over 5000 highly qualified engineers across the globe gives your business the comfort that Vaioni can deliver a full end-to-end managed service and guarantees a 4hr fix on any hardware in over 180 countries, along with advanced 24/7 monitoring services.

Other marketing leading services from Vaioni include our Hosted VoIP Platform - Clear Voice built on Broadsoft, Managed Security Services and Unified Threat Management through FortiNet, an aggregated broadband platform made up of BT and O2, Hosted Exchange using Microsoft Exchange 2007, collocation facilities across most of the major UK and international datacentres and Managed Remote Backup Service.

A decorative graphic at the bottom of the page consisting of numerous thin, overlapping blue lines that create a sense of motion and depth, resembling a stylized wave or a network mesh.

Our significance to you is in our skill to design, project manage and implement an extraordinary service or solution backed with an extraordinary support and customer care service.

We run a Next Generation carrier grade ISP backbone designed specifically for high performance ethernet services which is fully resilient ensuring ultimate reliability. Our global routes deliver low latency and extraordinary performance to ensure you can reach any part of your business in any part of the world fast.

Vaioni is the only service provider who includes senior management contact details part of its SLA and a 4-hour guaranteed fix on all of its managed ethernet services as standard.

This is Vaioni and this is what makes us extraordinary in our industry.

Client Relationship

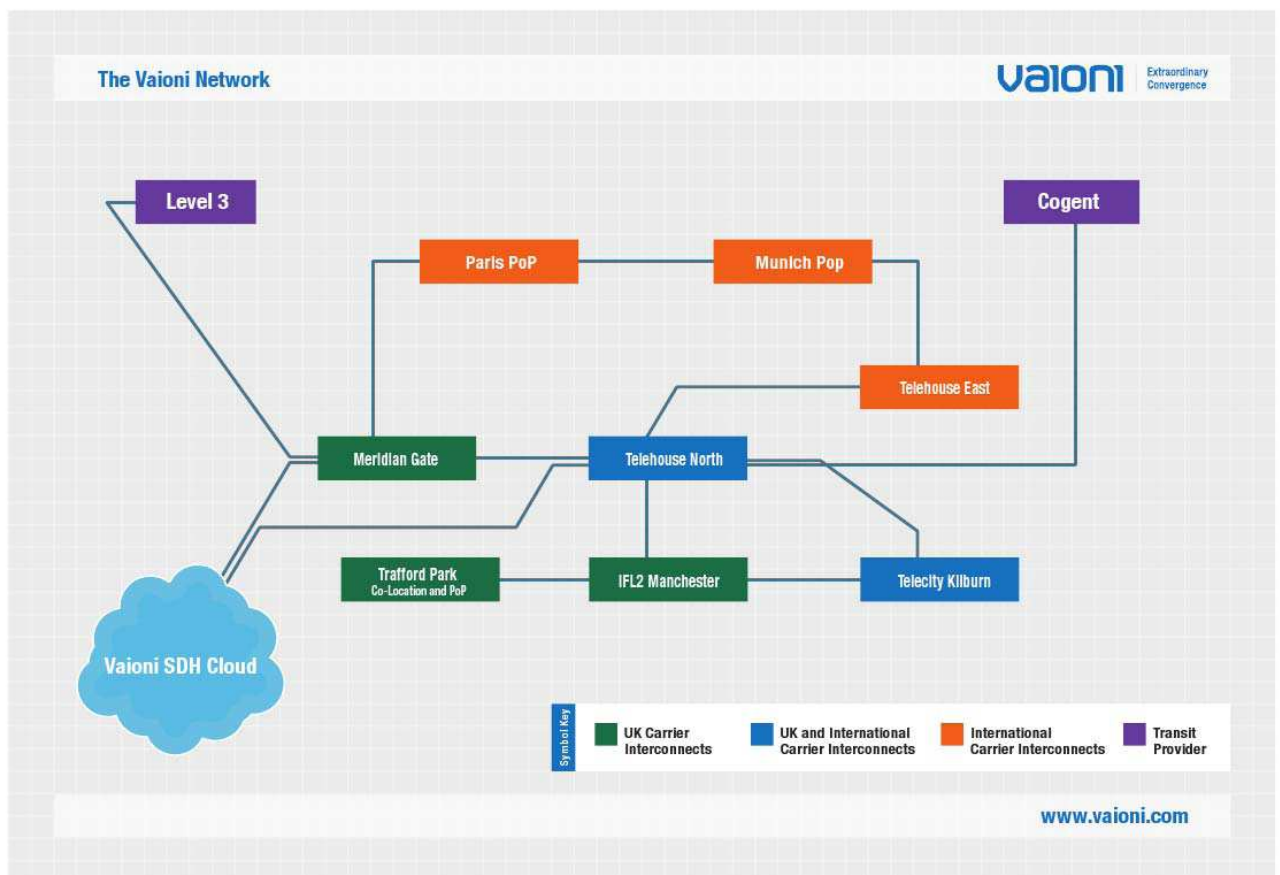

Our obsession at Vaioni is the satisfaction our customers in dealing with an Ethernet specialist like Vaioni. We still service our very first customer and we believe in straight forward thinking, straight forward terms of business and straight forward practices, which have allowed us to keep our customer base appreciative of our service and see the true value of what we do.

Vision

Vaioni's focus is to deliver extraordinary services and solutions and to become a world leader in delivering high end ethernet connectivity and Next Generation WAN Solutions to The Channel and Business community.
