

ULTRA 20

An exclusive managed service from Vaioni is its 20mb download ADSL2+ product with a maximum 2.6mb upload and yes we have customer getting 20mb download. We are one of the only providers of this superfast broadband service that comes with a 99.9% SLA and has a low 10:1 contention guarantee. Not only that we can have it up and running in 24 hours over a standard PSTN line. Part of the managed service we provide either a Netgear or Cisco router, 24/7 monitoring and a 4-hr fix (Cisco only). A great product for businesses who need a fast connection.
